

Hair Soap Coconut

**FAIR
SQUARED**

To mark the 30th anniversary of Fairtrade in Germany, we have developed a series of soaps in which the important Fairtrade raw materials coffee, tea, shea and coconut play the main role. These are handmade into solid body, face, shaving and hand soaps and are available in anniversary packs. They are part of the Fairtrade campaign „The talking products“ and behind the QR code is a film about the origin and manufacture of the product. We recommend using the coconut hair soap to clean hair that quickly becomes greasy. The key ingredient, coconut oil, is said to have a balancing effect that delays greasiness.
